Promotes collaborative learning

Trusted supplier in IntraLearn

IntraLearn

Don't be held hostage by over-priced and under-featured Learning Management Systems. The ground-breaking IntraLearn combines the most popular features from Course, Assessment, and Learning Management Systems into a single, affordable turnkey eLearning application. With auto-install and built-in authoring tools, organizations can literally begin to deliver world-class learning within days.

Microsoft Technology

Since 1997, IntraLearn Software Corporation (ISC) has been building eLearning software that leverages the security, scalability and performance of Microsoft server technologies. IntraLearn takes full advantage of the Microsoft .NET Framework™ to make single log-on and connecting to HRMS and ERP systems via Web Services quick and easy.

Create Superior Learning

IntraLearn is all about providing customers the ability to create and deliver effective learning and assessments as quickly as possible. IntraLearn allows users to achieve this through a variety of means:

- Built-in course and exam authoring tool support over 30 file types and require no HTML knowledge
- Import third-party SCORM or AICC compliant courses
- Upload industry standard courses from popular authoring tools

The Alternate Language System enables the system to be easily converted to various languages for true global eLearning.

Deliver Effective Learning

Collaboration is central to the effectiveness of learning. The ease by which all the built-in sharing and communication tools may be accessed from within IntraLearn enhances the quality of instruction. From the same online "class" environment, learners can email their classmates and instructors, chat in real-time, share files, take notes, receive assignments, link to external sites, and join threaded discussions. Self-grading exams and surveys are an essential tool for gauging learner proficiency.

Manage Diverse Learning

IntraLearn's web-based Administration functions enable users to configure the whole system, including setting-up permissions, remote and batch registration, creating multiple ports and choosing languages. All kinds of learning - from live learning events to online courses - are managed from a central location. Built-in reports track all kinds of system, course and learner data as well as provide learners and managers with performance status.

The Company

More than 2,000 organizations deliver eLearning using products from IntraLearn. ISC is the leading supplier of Microsoft technology-based eLearning applications in the world. With offices in the UK, Brazil, Singapore, and India, ISC products are distributed worldwide through authorized resellers and Learning Service Providers in more than 45 countries and 17 languages. ISC is a Microsoft Gold Certified ISV Partner.

<i>Client</i>	Hardware: Pentium PC with 256 MB RAM, 10 GB HDD, 800x600 dpi Software: Microsoft IE 6.0 and above, Internet Connection

The screenshot shows the IntraLearn Administrator interface. At the top, the 'intralearn software' logo is on the left and 'Administrator' is on the right. Below the logo is a navigation menu with 'Courses', 'Menu', 'Help', and 'New Course' (with an 'Exit' button). The main content area is titled 'System Management' and includes sub-sections: 'System Attributes', 'Instructors', 'Hierarchy', 'Proctor', 'Categories', 'Registrar', 'Order Manager', 'Course Sharing', 'Functions', and 'Synchronize SkillBridge'. Below this is the 'Course Management' section, which features a 'Course Title' dropdown menu (currently showing 'Advanced PL/SQL Programming') and a 'Submit' button. The 'Course Management' section is divided into several categories, each with a list of options:

- Course Management:** Course Attributes, Syllabus, Tracking/Control Options
- Content Management:** Assignments, Topic Content
- Course Resources:** Books and Supplies, FAQs, Glossary, Internet Links, References
- Assessment:** Add/Modify Exam(s), View Exam Results, Grade Book, Roster
- Student Communications:** Calendar, Chat, Chat Expressions, Discussion, Teams
- Utilities:** Bulk Load, Course Duplication, Course Export as HTML, Upload
